TRN-JP-037/075/100/150

TARN

WATER SYSTEMS

TOUGH, RELIABLE, EASY TO SETUP AND BACKED BY GOOD OLD FASHIONED SERVICE.

THE JET PUMP Series

TRN-JP-037/075/100/150

The TRN-JP-Series are single stage stainless steel self priming pumps designed to be simple, portable, economical and environmentally friendly.

These pumps are for use with non-flammable, or non-corrosive liquids without aggressive or abrasive elements. All pumps come with the TARN 2 year warranty.

APPLICATIONS

Ideal for use with rainwater tanks, water transfer, diversion systems and pressure systems.

CONSTRUCTION

- 316 stainless steel shaft • Stainless steel pump casing • Cast alloy motor casing
- Carbon ceramic seal • Single phase thermal overload protection from TI
- IP55 Class B motor insulation • 240V • All pumps come with pressure controller supplied

OPERATION CONDITIONS: 1. Liquid temperature: +5°C+60°C 2. Max environmental temperature: +50°C 3. Max pressure: 6 bar 4. Max suction head: 8 m

TRN-JP-037

Jet Pump 40L/minute with controller.
Suitable for domestic use in 1 storey house.

TRN-JP-075

Jet Pump 60L/minute with controller.
Suitable for domestic use in 2 storey house.

TRN-JP-100

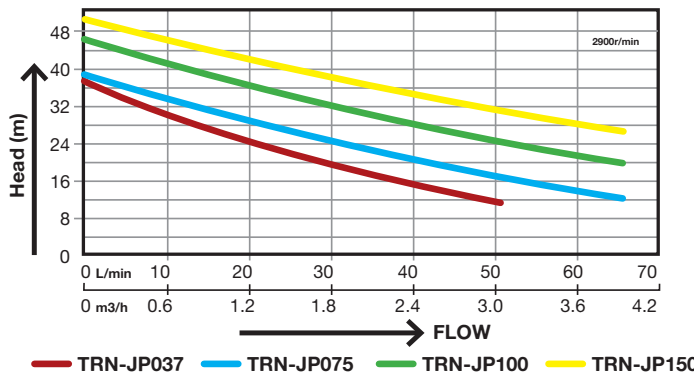

Jet Pump 70L/minute with controller.
Suitable for domestic use in 3 storey house.

TRN-JP-150

Jet Pump 80L/minute with controller.
Suitable for domestic use in 4 storey house.
